Summary	As a 4th-year undergraduate pursuing a BSc (Hons) in Software Engineering at SLTC, I have built a solid foundation in software development and data science through hands-on academic modules. My learning journey has deepened my interest in cutting-edge technologies such as Artificial Intelligence (AI), Machine Learning (ML), Deep Learning (DL), DevOps, and Full-Stack Engineering. I am passionate about continuous learning, solving real-world problems with innovative solutions, and contributing to impactful projects.
